**Abstract**—Main theme of your assignment or academic projects.

### I. ASSIGNMENT-1

Make a text file in C program.

### II. INTRODUCTION

A text file is a type of digital, non-executable file that contains letters, numbers, symbols and/or a combination. It enables the creation and storage of text without any special formatting. Text files are also known as flat files or ASCII files.

### III. INPUT OUTPUT

In this program, we are writing some of the characters and reading, printing and written characters.

### IV. CONCLUSION

This is a text file .
